Mr. and Mrs. Herbert Armstrong gave Mrs. Harry C. Ashby.

When a host and hostess speed the parting guest, as the entertainment breaks up their cordiality is usually increased by a feeling of indense relief. At a party given in Topeka recently the host had on his company manners all evening and was almost "nasty nice" in his policeness at the departure of the guests. But one who had lingered behind after all the others, unknown to the host and hesties, heard the former say to the latter us soon as the door was, as he supposed, closed upon the last member of the company. "Thank God, the agony's over."

Chicago, Jan, 22.—There will be no championship in the future among football can hundred years before the Prospect Union on "Reverence Consistent With Genuine Democracy." He spoke in part as follows:

"The great novement of the world today is toward democracy. The great keynote of the present century, the century that we are just entering upon will be democracy in all things, one hundred years from now the population of our country, which is now for the most part wilderness, will be beyond any present conception, and this great nation will be the most democracy will be the great feature of the advance of civilization in the present century. If this is to be sound, the character of our people must be as sound as their proficiency in the arts, in commetce, in government.

"Though critics of democracy say that democracy has destroyed some of their first characteristics of the older countries, such as reverence of children toward parents, pupils toward teachers the people toward their rulers, here is all relations a more genuine relation than fourserly. No nation in the world has such reverence for women as have the mon of the great republic. Our reverence for symbols has diminished, but not for the leasts which these material signs of religion and love or country stand for."

GUMMERE

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused it to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lyan, Mass., February 9th, 1819, coming from a good old Quaker femily. For some years she taught school, and women of the whole world. became known as a woman of an alert

a builder and real estate operator, and their early married life was marked by

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remediescalling in a physician only in specially urgent cases. By tradition and ex-perience many of them gained a won-derful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over disease. She maintained that just as nature so bountifully provides in the harvest-fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and mean and mean and mean and mean and mean are remedies and the field there are remedies expressly designed to cure the various ills and mean are remedies and mean are remedies and mean are remedies and the field there are remedies expressly designed to cure the various because of the bade and it was her pleasure to search these out, and prepare simple and effective medi-

Chief of these was a rare combina-tion of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses pecu-liar to the female sex, and Lydia E. Pink-

of income had to be found.

women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphieta acting forth the merits of the medicine, now ca'led Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of

The wonderful curative properties of the medicine were to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the fame ily had saved enough money to com-mence newspaper advertising and from that time the growth and success of and investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, ally in its manufacture.

Lydia E. Pinkham herself did not their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it herself.

During her long and eventful experience she was ever methodical in her serve a record of overy case that came to her attention. The case of every sick woman who applied to her for advice— and there were thousands—received careful study, and the details, includ-ing symptoms, treatment and results were recorded for future reference, and to-day these records, together with ills and weaknesses of the body, and be equaled in any library in the

and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots in all her hard-won knowledge, and for years she assisted her in her vast correspondence,

cure of the first and weaknesses peculiar to the female sex, and Lydis E. Pinkham's friends and neighbors learned that her compound relieved and cured and it became quite popular among them.

All this so far was done freely, without money and without price, as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With women assistants, some as capable as herself, the present Mrs. Pinkham continues this great work and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health," freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham. To her hands naturally fell the

At this point Lydis E. Pinkham's ham's Vegetable Compound: made from simple roots and herbs; the one great medicine for women's allments. Such is the history of Lydia E. Pink-The three sons and the daughter, and the fitting monument to the noble with their mother, combined forces to woman whose name it bears.
